NORMAN LOCKYER OBSERVATORY

Observatory & Planetarium

Salcombe Hill, Sidmouth, Devon, EX10 0NY

An Introduction to Astronomy

Saturday 28th January 2012

10.00am—5.00pm

A one day beginner's course covering the Sun, Moon and Planets. Stars, Nebulae and Galaxies. Telescopes and Star Atlases.

Everything you need to know to get you started! Includes free entry to an NLO open evening. On completion of the course attendees should be able to identify the brightest constellations and stars, and have a basic understanding on the use of a small portable telescope.

Fees: £20/adult (£15/NLO members). £10/students
Tea & Coffee included but please bring a packed lunch.
For reservations email: enquiries@normanlockyer.org
