

<b>Theme</b>	<b>Specific question</b>
Awareness	How to increase knowledge of TEA?
Awareness	GP training for newly trained and student doctors
Awareness	TEA is not currently recognised by most neurologists in local hospitals
Awareness	Communications with GPs to recognise the symptoms of TEA
Awareness	How to spread the knowledge of TEA around the world?
Awareness	How to feedback missed diagnoses to GPs/consultants
Awareness	How to disseminate information to GPs regarding TEA
Awareness	How can we improve TEA awareness in the medical community?
Links	Is there a link between migraine and TEA?
Links	Why does an attack affect the digestive system?
Links	Is there any impact of diet on TEA?
Links	How does TEA affect emotions?
Links	Side effects in TEA
Links	Are mood changes/ aggression the result of the condition or the medication?
Links	How does TEA /treatment affect dreams
Links	Potential comorbidities e.g B12
Links	TEA and emotions
Links	Are eyesight problems and brain function related to TEA?
Links	Is there any connection between TEA and hypersensitivity to noises
Links	Is there any connection between TEA and sleep disorders
Links	Is there a relationship between encephalitis, TEA and REM sleep disorder?
Medication	Why do some work better?
Medication	Could other medications be interacting and affecting the AEDs?
Medication	Can the medication be reduced?
Medication	Why does medication control episodes but not memory?
Medication	Potential to have medication review and consider new drugs that are available
Medication	What is the right quantity of AEDs and can it be kept low and reduced over time?
Medication	Any improvement in anti-epileptic drugs?
Medication	Is there one medication that appears more effective for memory retention?
Medication	Could all prescribed medicines have an affect on memory?
Medication	Could medication for TEA be reduced over time or is it for life?
Medication	What happens if the medication is on the brink of being effective - is there a danger of losing memories?

<b>Theme</b>	<b>Specific question</b>
Medication	Why does medication not help with ALF?
Medication	More information about medication compatability
Medication	Relationship between AEDs and heart medications
Medication	How do neurologists determine which AED to begin with? Is there any NICE guidelines for TEA?
Memory rehab	Can the gateway to old memories ever be restored?
Memory rehab	What determines what is remembered or forgotten due to ALF?
Memory rehab	Treatment for or techniques for dealing with ALF
Memory rehab	Why ALF, ABM and topographical memory problems?
Memory rehab	Why early memories are vivid but later memories in the middle years of life cannot be restored
Prognosis	Any evidence that delay in diagnosis causes a greater problem?
Prognosis	Can it be researched that TEA is not linked to Alzheimer's Disease
Psychological impact	Depersonalisation Disorder (DPD) as a result of TEA and treatments for this (e.g. CBT, SSRI, rTMS)?
Triggers/causes	Effect of external factors e.g. heat
Triggers/causes	What is the reason for monthly episodes? (e.g. hormonal?)
Triggers/causes	Is there any link with statins triggering TEA?
Triggers/causes	Is TEA genetic?
Triggers/causes	Is shock/stress a trigger for TEA?
Triggers/causes	Which sleeping patterns aggravates TEA
Triggers/causes	Links of stress and TEA
Triggers/causes	more research on the causes
Triggers/causes	Effect of heat on seizures
Triggers/causes	What lifestyle factors may be impacting on TEA symptoms (e.g. modifying diet, sleep etc)
Triggers/causes	Partner involvement in the methodology of autobiographical memory testing - the control check
